What will attending Old Friends Club cost and will insurance cover it?

Old Friends Club offers a cost effective option for consideration with significant benefits beyond in-home care. We offer a couple different monthly options based on the number of days per week the member would like to attend a club:

- \$550/month for 2 days/week
- \$725/month for 3 days/week

The cost averages less than \$14/hour which is less than half the cost of the same hours of in-home care. And, at the Club, the member gets out of the house, engages with others, and participates in various activities geared towards their interests and abilities.
